# AND NOW A WORD FROM...

**Okay ladies and gentlemen! You asked for it so you got it! For months you've been clamoring for a color magazine. Well, I have some good news for you — Your wish is our command!**

**For the past few months, our crack staff has been hard at work brainstorming for a new magazine idea that would make life for you, the reader, much easier. Well, we've succeeded. We've created a magazine that gives you everything you would get if you bought three price guides, in one. Starting in January, 1995, we (Century Publishing) will bring you the next generation of collectible magazines — COMBO. That's right, COMBO.**

1st Combo Cover February 1993

**COMBO will bring to you the best of all collectible fields. It will combine (get it, COMBO) comics, non-sport cards, action figures, cartoons, anime, video games, role playing games, CD-ROM comics and interactive services and so much more you won't believe it, all in a 176 page FULL COLOR format. COMBO will combine the full non-sport price guide and information from our sister publication CARD COLLECTOR'S PRICE GUIDE with the full comic book price guide and information from CBC. Plus, we'll add monthly columns and news on the hot topics listed above. Sound too good to be true? Hold on, it gets even better.**

**The price of this blockbuster mega-magazine — $3.95. Think about that. A full comic book price guide, a full non-sport card price guide, an action figure price guide, and the latest information on all those hot subjects in 176 full color pages for only $3.95. We must be out of our minds! Who else would be crazy enough to do this? Not the other guys. They're too busy splitting up their magazines, making it more costly for their readers. So cool guys at Century are thinking about our loyal, devoted readers. Now there is no reason to go anywhere else. You'll get it all in COMBO!**

**Not to worry, though; we are not going to cancel CBC or CCPG right out from under you. They will both continue until December. Then the transformation begins. The two will merge and metamorphose into COMBO. You will never be without the industry's most accurate price guides. And with the coming of COMBO, these price guides will only get better.**

**Well, enough about that for now. Keep watching my letter and other spots throughout CBC and CCPG for more information on the coming of the greatest collectible magazine the universe has ever seen. Sounds like a pretty cocky statement, doesn't it? Just wait until you see it!**

**But until then, remember, COMIC BOOK COLLECTOR is the One to Read — for now! When the next generation of collectible magazines is unleashed in January, you will be onboard for the landmark event. Don't miss it!**

# CBC MAILBOX

**I have just one thing to say; *CBC* would kick even more butt if it were in color.**

**A.J. Andrews**
**Paterson, New Jersey**

**I've been reading *CBC* since issue #7. Every one of them has been great. Your interviews are always better than the other magazines. I loved the John Byrne interview the best. I've been a fan of his since I was a kid.**

**The point I really want to make is that I'm a big comic card collector as well as comic book collector. I've been using the card price guide in *CBC* to get the values of my cards. It is pretty good, but I think I need more. Will you be expanding it anytime soon?**

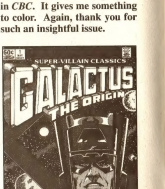
**Jose Rivera**
**La Jolla, California**

*I saved these letters just for this occasion. Guess what guys, both of your wishes have come true. Arriving in January is* Combo, *our latest magazine that will combine* CBC *with our non-sport card price guide,* Card Collector's Price Guide *in one easy to use color magazine. In* Combo *you'll get the full comic price guide from* CBC, *plus the complete non-sport card price guide from* CCPG *and an additional Action Figure price guide.* Combo *will be the first ever monthly magazine that will contain complete price guides for all three areas. In addition to these price guides there will be all your favorite articles and columns from both of the magazines plus new features and departments on the latest hot topics. You'll find the latest news for video games, role playing games, anime, CD-ROM comics and interactive services, phone cards, cartoons and much more. And the key here is it will only cost $3.95. Combo will give you a great reason to only buy one price guide for all your collecting needs. Can you tell I'm really jazzed about this new mag? This is going to be big, boys and girls. You're not gonna want to miss this one. Look for* Combo *in January. Keep following* CBC *and* CCPG *for more details.*

*CBC* **#19 was very interesting. I enjoyed the Rob Liefeld article. I also liked "From the Collector's Closet." I have always wanted to understand Galactus' origin. I'm going to ask my local comic shop if they can get me a copy of *Super-Villain Classics* #1.**

**I was happy to see a picture of Jack Kirby putting the finishing touches on *Amazing Fantasy* #15. "Through the Grapevine" is a very good column. I'm truly going to miss Jack "The King" Kirby.**

**I like the idea of putting some black and white pictures in *CBC*. It gives me something to color. Again, thank you for such an insightful issue.**



***Attention CBC readers, send your thoughts or comments or if you want to just drop us a line send letters to: Comic Book Collector, CBC Mailbox, 155 East Ames Court., Plainview, NY 11803.***

**Allen Klingelhoets**
**Barron, Wisconsin**

*Allen, those are the nicest things anyone has ever said to us. I feel tears welling up in my eyes. I'm so glad you enjoyed that issue. Thanks.*

**I am a skateboarder and big time comic book collector. I have been buying four different price guides. I like each one for its unique qualities. I buy some for the articles and others just for the prizes and contests.**

**I am very disappointed with the price guides in all of the magazines. Are they purposely trying to deceive people? I don't care for the *Overstreet Price Guide* because their prices are so under-priced, therefore, the true price is unknown and distorted.**

**I don't care for *CVM* because the comic listings and prices are belated in relation to the other price guides.**

**To sum it up, price guides vary in their prices so much that I don't know the real value of my collection.**

**I always liked *CBC* because most of your prices are correct and reasonable. However, some of your prices seem far fetched from the price that the comic is going for. For example: Your magazine has *Dr. Strange* #60 priced at $10. I've been to several stores and shows and I've never seen it for higher than $6. Also, I've never seen *WildC.A.T.S* #4 with the red card going for your price, "Fifty Bucks"!! I've seen them go for $5 to as high as $20, but never $50.**

**Well, I have to go, but to me your mag is #1. Keep up the great work.**

**Hayden Storch**
**Gahanna, Ohio**

*It's great to know that* CBC *is the price guide of choice in Gahanna, Ohio. Now let me try and explain something to you. First of all, the $10 price you see attached to* Dr. Strange *#60 is only the high price for that comic. If you notice, the low price is $7, a little closer to your price. We use a low and high price to incorporate the regional differences that seem to be frustrating you. These prices are both for the near mint price. Not just the higher one. Unless you have been to stores and shows across the country you may never see that book selling for $10. In some part of the country it is selling for $10. In others, yours included, it is selling for less.*

*Now, about this* WildC.A.T.S *#4. What the %$#* are you talking about, $50?!! I don't know what price guide you were looking at when you wrote that part of the letter, but it sure wasn't* CBC.

**CBC FAN APPRECIATION**

Did you get a good eyeful of this Youngblood drawing by Nick Oestmann of Sauk Village, Illinois. Pretty spiffy. Watch out Rob Liefeld, here comes Nick after your job.

# GRAPEVINE

## FIRST EVER APE CON A SUCCESS

Slave Labor "mogul" Dan Vado held a convention for small comic book publishers in San Jose on June 4, illustrating how diverse this group really is. There were 100 or so booths and a surprising lack of representation from the better known small comics publishers. Still, it made up a very healthy number of people who just plain decided to put their own books out themselves. These books ran the gamut from xeroxed mini-zines to slick paperbacks, covering every genre from skatepunk to porn to humor strips to alternative superhero sagas. Among the guests of honor were Shannon Wheeler of *Too Much Coffee Man*, Dave Sim and Jeff Smith.

Dan Vado took a few minutes off from his hectic job of overseeing the Expo to note about 500 paying customers with almost as many people behind the booths. It seemed that the main market for alternative press works was other alternative publishers. However, for the first of an unusual variety of Cons, one could say that's not a bad turnout. It was felt by many that the main way this part of the comics industry can thrive was by networking frantically. The APE Con provided a unique opportunity to do just that.

Vado reports Slave Labor lost a bit of money on the project, and when asked if this was going to happen again next year, he's said he was already making plans for the next Expo.

## ROBOTECH PICKED UP BY NEW PUBLISHER

Longtime favorite manga title *Robotech* will now be published by a new player in the publishing field, Academy Comics. The South Bend, Indiana firm promises that they will pick up the storyline where it left off when Malibu cut the title that used to be part of their Eternity imprint.

## DIAMOND ANNOUNCES ACQUISITION OF COMICS UNLIMITED, LTD

Diamond Comic Distributors formally announced that it had acquired the New York-based comic distributor Comics Unlimited, Ltd. on May 29.

CU was formed by Walter Wang and Ron Forman in 1977 and served 250 direct market comic stores. Diamond assures all of CU's customers that their accounts will be in good hands. They also promised no disruption in service to the customers.

"Logistically, the only immediate difference is that Comics Unlimited customers will be filling out a Preview Order Form instead of a Comics Unlimited order form," said Wang.

## 12,000 ATTEND COMIC CONVENTION IN HOLLAND

Comic fans in the Netherlands are being "spoiled" by two comic conventions this year. One held in Haarlem and drew 12,000 people. Artists like Moebius, Enki Bilal, Art Spiegelman, Schuiten, Don Lawrence, Joost Swarte visited the convention. Museums, comic shops, art galleries, coffee shops and even several bars contained exhibitions of these world famous and not so famous artists.

Most roads lead to the heart of the city, where the church and the market square were packed with different booths filled comic shops from all over Europe as well. Collectors and starting artists tried to sell as much as they could to the publishers. French publishers such as Dupuis, Lombard and Casterman were joined by Dutch publishers Big Balloon, Divo, Stripschrift and Comic Watch. Comic importers Professor Ich, Pep Comics and Raadsel completed the Hall.

Oddly enough, the largest of the artists there was Don Lawrence. He sells over 2 million comics of his *Storm* and *Trigan Empire* graphic novels every issue. He is currently working on an American deal and one seems to be on the way.

The second Dutch convention will be held at the city of Breda from October 15-17.

## DIAMOND RETAILER CONFERENCE DRAWS BEYOND ALL EXPECTATIONS

The 11th Annual Diamond Retailers Seminar surpassed its promoters expectations. According to Diamond Comic Distributors Marketing Managers Todd Scott and Lance Wood, they were hoping for 1,750 attendees and final registration was 2,798 publishers, artists, media and other comic professionals and, of course, comic retailers.

The event was held at the Convention Center in downtown Baltimore from Saturday, June 11 through Tuesday, June 14. Key events included the Fourth Annual Gemmy Awards, showcases from just about all major comic publishers and card manufacturers, retailer seminars

on a number of topics, the ever popular exhibition room as well as a baseball game that saw the Baltimore Orioles (of which Diamond President Steve Geppi admits to having some shares in) beaten by the New York Yankees.

Keynote speakers were *Sin City* creator Frank Miller, *Understanding Comics* author Scott McCloud and Pioneer Award Winner Denis Kitchen.

## DC CLEANS UP GEMMY AWARDS

## TOPPS TO DO BUCKMAN COMIC

Topps announced at the Diamond Retailers Seminar that they will be doing a comic based on the Klasky-Csupo animated series, *Duckman*. Steve Purcuchia is the writer. The artists have yet to be announced. Of course, the word on whether the series itself will still have a life on the USA Network is still in the air, but Topps is committed to doing the comic for the time being. It is scheduled to hit the stands in November.

## FRANK MILLER TO SHOOT, THEN SIGN COPIES OF SIN CITY HARDCOVER

Dark Horse just announced that Frank Miller's hardcover editions of his latest *Sin City* saga, *A Dame To Kill For*, has just arrived. Now Miller, Legend and Dark Horse will be creating a special collectors edition they'll call the Shot and Signed Edition.

Miller will go to a shooting range with a number of the hardcovers in tow. He will then shoot the books with a gun of his choice, autograph them and enclose either a shell casing or a spent slug with the book. The number of books to be shot and signed are unknown as of this time. Neither is the suggested retail for this different kind of collectible edition. Stay Tuned.

## MARK CHIARELLO WINS NATIONAL CARTOONIST AWARD

Mark Chiarello, the artist for Howard Chaykin's piece *Batman/Houdini: The Devil's Workshop* (DC) has just won the National Cartoonist Society Award for Best Comic Book. Chiarello is the Color Editor for DC, and the company states that his work in that area has made great strides in advancing the company's color processing and developing new color talent for them. Chiarello's work can also be seen in Vertigo's *Animal Man* and *Mike Mignola's Hellboy* for Dark Horse.

## JONAH HEX WINS STOKER

DC has announced that the *Jonah Hex: Two Gun Mojo* miniseries won the first ever Horror Writers of America Bram Stoker Award for Best Story, Other Media. Fundamentally, the Other Media award goes to any horror work that is not in straight prose and includes not only comics, but film scripts and interactive games. Lansdale has previously won the award for his short fiction. A new *Jonah Hex* mini will soon be published by DC. Lansdale is also the writer of the new *Lone Ranger* series for Topps Comics.

## DIRTY PAIR GOES TO VIZ

One of the most popular anime/manga set of characters, the Dirty Pair, will be back on this side of the ocean as a new title for Viz Comics. Viz states that the new comic, entitled *Dirty Pair Same Comic*, will follow the format of *Mobile Suite Gundam 0085*.

"As an anime fan, *Dirty Pair* has always been one of my favorites," says Viz Assistant Editor Toshifumi Yoshida. "It's really a thrill to be able to publish something which has always been such a huge fan favorite—not only in this country, but all over the world—for so long."

The title ships on September 27. It will have a $4.95 cover.

## SOTHEBY'S COMIC AUCTION BREAKS ALL RECORDS

The latest Sotheby's auction for comic and animation art, held on Saturday, June 18, broke all records for gross sales, but its prize item wasn't part of that mix.

The high ticket item was some prototypical art of Superman by Joe Shuster. Designed some time in the early 1930s, it was a pencil sketch depicting the origins of Superman. It was for a newspaper strip, not for what would eventually become *Action Comics* #1.

There is a controversy developing over this art. The late

Shuster, who died in 1992, had given it to a friend of his, who in turn passed away in 1993. The art was being sold by the friend's estate. The controversy involves Shuster's sister, who is citing a California law that states 5% of the gross sales for the sale of the item should go to either the artist or the artist's estate, i.e. her. She also stated that Sotheby's has refused to listen to her. A Sotheby's spokesperson said that this was the first time she had heard of it. She also said that Sotheby's recognized the California law as they maintain an office there.

The whole matter was rendered moot, though, by one simple point, the Superman art was withdrawn because no one would meet the $80,000 initial bid price for it. It is Sotheby's policy that when no bidder will go even 10% under the initial bid price, it's taken off the block and either reevaluated or sent back to the owners.

Not that a number of comic book and comic-related items didn't command top dollar. Maybe Diamond was right in naming their lifetime achievement award after Carl Barks. An oil painting of Uncle Scrooge entitled "Golden Fleece" commanded a whopping $79,500. A restored version of *Action Comics* #1 went for $54,625 (when the initial asking price was $20,000 to $25,000) and a copy of *Detective Comics* #27 garnered $48,875 ($25,000 to $30,000). The top ten pieces of comic art were:

| ITEM | PRICE |
|---|---|
| Oil Painting of Uncle Scrooge by Carl Banks | $79,500 |
| Action Comics #1 (First Superman) - Restored | $54,625 |
| Detective Comics #27 (First Batman) | $48,875 |
| Original Art from Prince Valiant by Hal Foster | $21,850 |
| Amazing Spider-Man #1 | $18,400 |
| Marvel Comics #1 (first Human Torch) | $17,250 |
| Superman Secret Compartment Ring | $16,100 |
| Captain America #1 | $16,000 |
| World's Finest Comics #5 Original Art by Fred Ray | $16,000 |
| Action Comics #50 Original Art by Fred Ray | $16,000 |

The comic art auction grossed an amazing $1.688 million, the largest amount for any comic art action, ever.

## MARVEL & MCA/RANK CLOSE DEAL ON ORLANDO THEME PARK

Marvel Entertainment, MCA, Inc. and the Rank Organization, PLC have announced they will be joint partners in a new Universal Theme Park Project. The area will be built exclusively around the Marvel Universe characters including the X-Men, Spider-Man and others and based in Orlando, Florida. It will be part of the over-all Universal Theme Park already operating and scheduled to open in 1999.

Plans for the Marvel Park are part of a long term relationship between Marvel, MCA and Rank. It will include plans for more Marvel areas in other Universal theme parks throughout the U.S.

Universal City Florida is the third most visited theme park in the U.S. and the largest movie studio outside of Hollywood. It already includes five themed hotels, an entertainment complex, and 18-hole PGA golf course, tennis center and a lot of retail and merchandising facilities which will start stocking Marvel merchandise.

## SMASH! BOOM! POW! TIP OF THE MONTH:

**Here is a great book that can be enjoyed by everyone. Don't think you have to be an Archie fan or a Punisher fan. If you like reading good comics then Archie Meets the Punisher #1 is for you.**

**Set in Archie's hometown of Riverdale, the Punisher is in hot pursuit of a criminal that just happens to look exactly like Archie.**

**The 48-page story is written by Batton Lash, best known for Wolf & Byrd. It features artwork by Stan Goldberg who draws Archie and John Buscema who draws the Punisher.**

**This book is significant because it is the first inter-company crossover between Marvel Comics and Archie Comics. These kinds of crossovers are usually extremely entertaining, and this is no exception.**

**So, if you're a fan of either of the characters, are looking for a fun story to read or like crossovers, this one is a definite winner. Do yourself a favor, go find one today.**

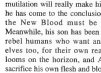
➤ **Elfquest: New Blood #21** is "Forevergreen" part 9. In the jungle city of the human Hoon-G'vao-Sho, those who worship the elves, things are falling apart. Aramak, the spiritual leader, who so desperately wants to be one of those he worships. But no amount of surgery and mutilation will really make him an elf, so he has come to the conclusion that all of the New Blood must be destroyed. Meanwhile, his son has been captured by rebel humans who want an end to the elves too, for their own reasons. War looms on the horizon, and Aramak will sacrifice his own flesh and blood to win.



➤ **Elfquest: Blood of Ten Chiefs #10** is the first all new Blood of Ten chiefs story. Thousands of years ago, the High Ones came to the World of Two Moons as the result of a terrible accident. Their galaxy-spanning starship was damaged and they were marooned on this hostile world. No trace of the ship, other than the shape-changed Palace of the High Ones, survived that time. Or so everyone thought. For just before the crash, another artifact — the product of ancient science and magic mixed, was jettisoned. For ages it has orbited the world, harmless. Now, in Bearclaw's time, it has landed. And the changes it wreaks in the Wolfriders will affect them for all time.

**Gateway to Doom**
***Warlord Annual #1***
**by Mike Grell**
**DC Comics, 1982**

Expect the unexpected! Hidden beneath the Earth's surface lies the savage land of Skartaris where the sun never sets and death takes many forms. In a world full of sorcery and warriors, treachery is a way of life and only the strong survive. One man has become a legend in this deadly place. With the skill and bravery to tame this wild world, one man has earned the name Warlord.

Trapped in a violent land he could never have dreamt existed, Travis Morgan struggles daily to conquer the challenges of life in Skartaris. Once a, United States fighter pilot, Morgan found himself cut off from the life he knew after a devastating plane crash in the wilderness. Now he stalks a lost land, relying on his wits and strength to earn himself a place among the greatest fighters of the daylight world.

Influenced by the works of Edgar Rice Burroughs, Mike Grell's *Warlord* casts a modern man adrift in a strange and primitive setting. Forced to fight for his survival, Morgan also faces the difficult task of learning to live among the bizarre people and cultures of the Skartaran lands. With only a pistol and a handful of bullets to link him to his past, Morgan must take up the sword and learn to face his new home on its own terms.

Throughout his lengthy run as writer and artist on *Warlord*, Grell provided consistently good stories and illustrations. Always exciting *Warlord* was often innovative and original. Grell refreshed traditional themes such as the conflict between modern man and a primitive world, perfected a unique blend of fantasy, science-fiction and drama. Skartaris comes alive through its distinctive and well-developed characters and vivid settings. It's vast and unpredictable nature makes every episode in Morgan's life a tumultuous adventure.

An excellent showcase for the series, *Warlord Annual #1* features a self-contained story by Grell. When a chance encounter leads Morgan and his changeling companion, Shakira, to the rescue of a lost Princess and her servant, an unlikely alliance is formed. Fearing for the life of the Princess if left to fend for herself, Morgan consents to escort her to meet a distant king to whom she is betrothed. Attended only by Tristan,

who secretly loves her, the Princess proves to be selfish and prone to complaining. Convinced of her superiority the Princess is in reality helpless and doomed but for the help of the Warlord.

Grell combines the best action and adventure elements of *Warlord* with a smattering of romance and produces an exciting fable. Even when highlighting the dangerous nature of Skartaris Grell retains the light tone of the story. Low demand for this series keeps back issues inexpensive and easy to find. *Warlord Annual #1* stands well on its own, but also offers an excellent introduction to Grell's marvelous series.

***The Thing From Another World #1 and #2***
**by Chuck Prarrer and John Higgins**
**Dark Horse Comics**

Trapped under the Antarctic ice a deadly creature slumbers. Frozen by the bitter cold, it lays dormant and unknown for centuries. Only when a band of scientists disturb its resting place does it awaken. Dragged from the wreckage of the spacecraft which brought it to Earth it lashes out at the offenders. The most deadly organism to ever walk the planet has been unleashed!

Vicious and cunning the Thing is one of the greatest and most disturbing alien creatures ever created. Originally crafted for a short story entitled "Who Goes There?" by John Campbell, the alien has appealed to audiences for decades. Adapted to the silver screen in the 1950s the Thing terrorized an artic base in one of that era's most frightening science-fiction films. Revived by John Carpenter in the early 1980s, the Thing proved just as terrifying to modern audiences. The story of what happens to a small group of Antarctic researchers after reviving the creature is a science-fiction classic.

Dark Horse's series picks up where the Carpenter film leaves off. The Thing has been defeated but not destroyed and only two members of the team have survived. In the wake of the battle, MacReady and Childs are stranded with no hope of survival. Knowing that with their deaths the Thing will be trapped forever, reclaimed by the frozen wasteland, the two wait to die. Their plan is foiled when a rescue party appears and takes them into custody during the investigation into the destruction of their base.

Seizing the opportunity, the Thing attacks the newly arrived life. Impervious to conventional weapons, the Thing also possesses the ability to take control of other beings. Replacing them cell by cell the Thing can perfectly mimic any living creature, making it almost impossible to stop should it reach the masses of civilization. Infiltrating the small party, the alien begins its bid for warmer climates.

Higgins' spectacular painting captures the stark beauty of the Antarctic wastes and the violent power of the Thing. Known for his outstanding color art on books such as DC's *Batman: The Killing Joke*, Higgins displays his talent at telling a story. Capturing the drama and suspense of the movie in every panel, Higgins offers a thrilling glimpse at the horror spawned by space and the determination of MacReady, the one man capable of fighting it.

Overlooked by most fans, *The Thing From Another World* secured a core audience large enough to support two four-issue follow-up series and a brief run in *Dark Horse Comics*. All are excellent reading and maintain the level of quality established in Carpenter's film, but the first series is the most visually dazzling. An excellent place to begin following the legend of the Thing, these issues are readily available on the back issue market and priced low.

# SETTING HIS SIGHTS ON PROPHET

# Q&A WITH STEPHEN PLATT

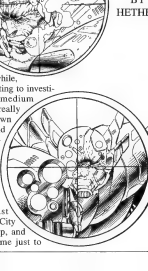
*It has been a whirlwind year for 24-year-old artist Stephen Platt. In that brief time, he has finished art school, broken into comic books, landed a job at Marvel, rocketed over to Image Comics, and is moving from Toronto, Canada to work at Extreme Studios in California. Now it's time to take a breather and concentrate on* Prophet.

**Comic Book Collector:** How does a young Canadian art student first land a job at Marvel and then go on to Image Comics?

**Stephen Platt:** Basically, what happened was I was in the Ontario College of Art in my third year, and there was this school trip to New York. I had wanted to get into comics for awhile, and had been wanting to investigate the comics medium for some time. I really felt that going down to New York would be a good experience to expose myself and my artwork to anyone at Marvel who would look at it.

It was my last day in New York City on this school trip, and Marvel had told me just to leave my samples at the door and that someone would look at them there, and that I was not allowed in Marvel. I was cashing some travellers' checks in a bank on Park Avenue and in walked all these people wearing Marvel jackets. I asked one person where I could buy one, that I really liked his jacket. When he explained that he was an employee at Marvel, I pulled my artwork out. He was impressed and told me to come back [to Marvel] at two o'clock. I came back at two o'clock, and I got to talk to quite a few editors and I got shown around. It was Friday afternoon so a lot of the editors had left Marvel already. I had left some photocopies behind, and I had been given a few numbers. A week later I had a job doing *Marvel Comics Presents*. That was a Moon Knight job. It has never seen print, and I don't know if it ever will.

BY JANET L. HETHERINGTON

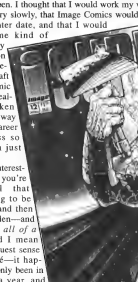


Then I got a call from Marvel offering the *Moon Knight* regular title. James Fry, the regular penciller, was leaving. They had seen the Moon Knight pages for *Marvel Comics Presents* and liked them. The title was already getting cancelled, so I figured, what have I got to lose? The rest is history, as they say.

**CBC:** It sounds a bit like a fairy tale...

**SP:** I went to New York absolutely with the intent of

getting my pages in front of somebody who would be influential. I had no idea that what has transpired was going to happen. I thought that I would work my way up the ladder very slowly, that Image Comics would come at a much later date, and that I would receive some kind of notoriety much later on when I'd fine-tuned this craft they call comic books. I'm really quite taken aback by the way someone's career can progress so rapidly. I'm just astounded.



It's also interesting, because you're so hopeful that you're going to be successful, and then all of a sudden—and I'm talking *all of a sudden*, and I mean that in the truest sense of the cliché—it happened. I've only been in comics for a year, and here are people lining up to get my autograph! I've been given these wonderful opportunities; here I am doing an interview. I have to tell myself, "Whoa, put your feet back on the ground."

It's quite strange. Sometimes you think, "Oh my God! It's ludicrous what's happening!" And sometimes it's tough being so new, and you make all your mistakes in public and be so visible, as opposed to someone who has just broken in and who doesn't have that visibility. I don't think the pressure's there as when everyone is watching you.

I'm completely thankful for the fan support and the circumstances that have taken place. But there's a lot of pressure, as you can imagine, when you're "growing up" in public.

**CBC:** How are you finding your work on *Prophet* for Image Comics?

**SP:** I'm enjoying the character. I think I spent too much time on #5 and I apologize to the fans for that to no end. But #5, to me, was a very important issue, and I think it's an important issue as far as Prophet's continuity is concerned. It shed some light on his past in a way that didn't reveal everything all at once.

I think Prophet has a long way to grow because he's so new, but it's very exciting to work on a character who is, in a lot of ways, without premise…he's still very embryonic. I can take part in a genesis that is really quite original because there's no precedent that's been set. With Batman, for example, there's things you can and you can't do. With Prophet, we can develop him any way…he has this past that may be deviant, or may not be. I mean, we don't know who he is yet.

**CBC:** *Prophet* seems grittier in the issues you've worked on...

**SP:** Yeah, that's the personality that he's taken on through me. Rob [Liefeld] and I do talk over the plot. We talk over where we think the character should go. There are things that I want to do with him and things that I think would be real interesting, and there are things that he wants to take care of. We've developed a true collaboration.

**CBC:** Your style has a definite 'look'. Did you evolve that consciously?

**"Sometimes it's tough being so new, and you make all your mistakes in public."**

**SP:** You just arrive at where you are. You just arrive at that particular point artistically by redrawing, and looking around, and learning more, and taking from things that you like. I think you regurgitate everything that you see. Some of it you adapt, and some of it you retain. If you have influences, I think it's inevitable that

it's going to manifest itself somewhere in your artwork. There are certain artists that are influences on my work; you may not even see it there. I try to take what I like from everybody, and what I don't like, I don't do.

Obviously, the first words coming out of people's mouths when *Moon Knight* showed up were "McFarlane", and "McFarlanesque". I would plead 'guilty' to that. But my influences are varied. Frank Miller, Geof Darrow, Moebius. The four members of 'The Studio'—Bernie Wrightson, Barry Windsor-Smith, Mike Kaluta, Jeff Jones—I am truly in awe of their work.

**CBC:** I understand you began reading comics when you were very young?

**SP:** Yes, and then I stopped! I became interested in different artistic areas. I went to a high school for the arts, and kind of dropped the comics thing. It was sort of like pulling teeth because I didn't really want to let go of it! And it's always been in my work. It's just been there in a different form—the hulkish, muscular male and the buxom, pin-up type girl. That fantasy element, that aggression, or that ferocity has always been in my work somewhere. Even though I became a fanatic with regard to the Renaissance, Baroque, Neo-Classical and Pre-Raphaelist paintings—and later on, the Modern school—in my academic training, comics have somehow appealed to me. There's a visual style in comic books that always appeals to me.

I got away from it for the longest time. I was interested in plays, in dance, movement, acting and the stage...only because it was all going on around me. It was a first-hand experience. It was a diversion, but I think it was a healthy diversion. There's nothing wrong with an education.

**CBC:** You're moving from Toronto to California to work at Extreme Studios?

**SP:** Right now, it's much more beneficial for me and for the book to be down there rather than me to be 3,000 miles away. Rob is so busy with other projects, it's better for me to be there. The book starts to lose its spontaneity when you have to wait, and being 3,000 miles away is difficult especially when a project is being nurtured.

**CBC:** Do you have any other pet projects that you would like to pursue?

**SP:** Oh yeah, I have developed many other characters myself. Whether I choose to reveal them in *Prophet* is up to me. Ultimately, I would like to have my own book, and I would like to do that through Image. But I think I have to grow as a monthly comic book artist first, before I really try to attempt my own project.

Some of the best advice I've ever been given about a comic book career is that you have to run it like a long-distance run. So, I'm not in a hurry. I don't feel an incredible urge to get all of this done. I really believe that there's a maturing process that has to take place for any event to really be worth anything. I just see myself right now with a lot to learn.

## More Than Meets The Eye

BY STEVE FRITZ

David Quinn and I are discussing his current work. I just happen to mention that his biggest selling comic was probably *Dr. Strange*.

"Not really," he deadpans in his quiet hipster style. "It's *Faust*."

Imagine, Rebel Studios has a title bigger than one of the Marvel stalwarts. Quinn should know, he writes both.

It's been a long, strange ride since Quinn, Tim and Joe Vigil started Rebel Studios. Now it's paying off.

It all starts in the mid-80s with Tim Vigil. Vigil heard of a printer out in California who was publishing its own comics. Vigil decided to see if the publisher had a job for him. He started working on a black and white title called *Grips*.

"John Jaspers was based on that," Vigil now admits. "I didn't care for *Grips*. He was just violent and crazy, totally off the cuff. I thought that if I was going to do another character like that it would be more mature."

*Grips* benefited Vigil because it sent him to Brooklyn' New York for a signing. There he met Quinn, who was teaching English at Brooklyn College. The two hit it off and began work on a comic called *Omega*. After that, Vigil's thoughts turned back to *Grips*.

"Quinn had some ideas that I thought were pretty cool," Vigil recalls, "and I came up with a drawing that was based on Grips, Batman and a little Wolverine. It came together pretty easy."

The character Tim Vigil drew was John Jaspers, the talioned executioner most comic readers misidentify as *Faust*. Faust is actually only the title of the comic. Initially, it was published by Northstar. It also featured a back-up story by Tim's older brother, Joe.

The effect was a kick in the gut. Jaspers, a frustrated artist looking to experience life at its maximum, sells his soul to a dark, powerful being named M. As payment, he becomes M's exterminator. For reasons the story has yet to disclose, Jaspers rebels against M and is either buried alive or killed by his mentor. He escapes, and is now gunning for M.

Completing the picture are Jade, a woman who fell in love with Jaspers before his demise and the lethal Claire (our cover girl this issue), M's current exterminator.

It wasn't enough that Quinn's story was dark, occult, and convoluted, but it was also compelling. Vigil's pencil and ink work had been refined to the point where the realism depicted inside was terrifying. This was not your every day funny book. This was a dark action film on the printed page, in vivid black and white. The reaction was immediate.

A number of the more genteel factions of the comic media refused to cover the book, even though later chapters of *Faust* showed a well-conceived storyline. A number of stores didn't want it anywhere near their premises or if they did stock it, it was kept in a dark corner behind the counter. Yet those that did find *Faust* got hooked.

What a number of people probably don't realize is Quinn and Vigil are rare birds in the comic industry: perfectionists.

"It's tough to sit there and do something that you know is going to get a certain amount of criticism against it." Vigil admits. "Yet you've got to believe like I do that what I'm doing is necessary. My idea of storytelling is, I'm one of those guys that wants to make you see what's actually going on. I'm not pulling any punches. I'm saying this is cruelty. This is gore. Sure, it's emotionally tough to do. I'm trying to convey the terror of the whole thing. With *Faust* you are supposed to feel the violence of that character. You are also supposed to feel the pain. It's a blatant truth."

There's an interesting side effect to all this. It wasn't long before Vigil and Quinn were fed up with Northstar. They set up Rebel as its own publishing operation and moved *Faust* with them. They also started publishing other titles by other artists, among them Joe Vigil's *Dog*.

"After Tim split from Northstar, Dave came to me and asked if I'd be interested in doing something for Rebel Studios," Joe Vigil recalls. "The fact that Tim was there was one of the reasons why I wanted to join. The main reason was they would let me do whatever I wanted."

*Dog* is set in a world that Joe Vigil calls the Post Apocalypso. He is a former Marine Ranger who strikes for justice. It's a violent book in its own right, but nowhere near the level of *Faust*. That didn't stop the book from being placed in the same corner as *Faust*.

> **"It's tough to sit there and do something that you know is going to get a certain amount of criticism against it."**

"We only have two real adult books, *Faust* and *EO*," Joe admits. "We actually have some 18 titles, the rest no more violent that any other mainstream title. Yet all our titles are put in the adult section because of what people say about Rebel Studios. It's not fair, especially to the other guys. Look at the Anne Rice books or Frank Miller's *Sin City* or *Give Me Liberty*. They're both too heavy for my kids, but they are still stacked with all the mainstream comics."

Joe Vigil's latest title, *Gunfighters From Hell*, is rapidly joining the ranks of *Faust*, *EO*, *Spring Heel Jack* and *Night Vision* as another successful Rebel title.

"I was always a big fan of Sergio Leone, Sam Peckinpah

Night Vision

and other similar western movies," explains Joe, "especially Leone. He always made them look like it was a different world. It's almost surreal. So I took the images of Sergio Leone and did them up. Then I went to David Barbour, who's another Leone fan, and we developed the story."

The plotline revolves around lieutenants of Satan deciding to bring on Armageddon before it's time. In fact, they have already broken through. Seven cowboys are sent down to stop them and only two are left. You know it's only a matter of time before it's high noon down where the sun doesn't shine.

Tim seems more than a little proud that the first two chapters of his brother's title have sold through and it's now time to do a second printing. The third chapter is ready for publication. He and Quinn are also putting out *Faust* #11 shortly, with the final chapter in 1995. Vigil is also busy on the second chapter of *EO* while Quinn's hard at work on a couple of spin-off projects from *Night Vision* and *Faust*, called *Singha's Talons*.

"We've set up a schedule of all the things I have to do and it's pretty intense," Vigil admits. "I did 30 pages of layout on *Singha's Talons* and Hannibal King is now doing the work. There's about 15 pages completed on the first part and we're well on our way towards the second."

The cover of Faust #8

The only thing that Rebel now has to conquer is its past track record for lateness. Quinn points out that one of the reasons why they had this problem was a film deal for *Faust* that fell apart. Writing the script took up a considerable amount of both his and Vigil's time, only to see the whole thing fall through.

"They wanted to make it another *Crow*," says Quinn, "and not *Crow* the comic, which I thought would have made an excellent movie, but what did come as the movie version of *Crow*. We wouldn't do it. Now we've decided if it never gets made, it never gets made."

Vigil also has his own fires to tend to. "After every issue [of *EO* or *Faust*] I burn out. I find other little projects to do, things to keep me away from doing another page. I need the space to keep my head straight. Also, I have to run Rebel. Rebel is a tough thing to pull off on a day-in, day-out basis."

Meanwhile, the number of Rebel readers keeps growing.

"It's really an uphill slog with the distributors right now," Quinn admits. "Fortunately, we now have a single employee. Debbie's a lovely person who actually makes a living working for Rebel. We live from our royalties. Where she has really proved invaluable is she makes up for what the distributors won't do. She's gotten a lot of people to start selling us. She fills the gap."

"I think independents are picking up again," Vigil adds. "The interest is finally coming around."

"It's just a matter that readers are responding to more well thought out, dramatic comics," says Quinn. "They want something that shows an emotional range and unexpected stuff with no gimmicks. The only problem at the moment is nobody accepts a comic where no one flies.

"I just talked to Tim and we were going over *Faust* #11. One of the things I told him was while it is really hard to write, it is ultimately more gratifying to write."

"Things are turning around and I'm glad," adds Joe Vigil. "I remember when horror comics were really looked down upon. Now *Jonah Hex* has just won the Bram Stoker Award and is up for the Eisner. I think it's just that we provided people with something different to read. We do come up with some pretty good stories, if not on par then definitely superior to anything else out there. I think we've got some of the best writers. What some guys push as stories are so bad that it strikes me as unbelievable. Those comics DO ride on their characters' names.

"I mean we spend time on our comics. Anything you see in our books is legitimate. People are starting to see that in our books."

# SCHISM

## The End Is Just The Beginning

by Buddy Scalera

Most summer crossovers follow a simple premise consistent with storytelling: there is a beginning, a middle and an end. Defiant's *Schism* crossover changed all of that. There is no end to *Schism;* there is only a beginning.

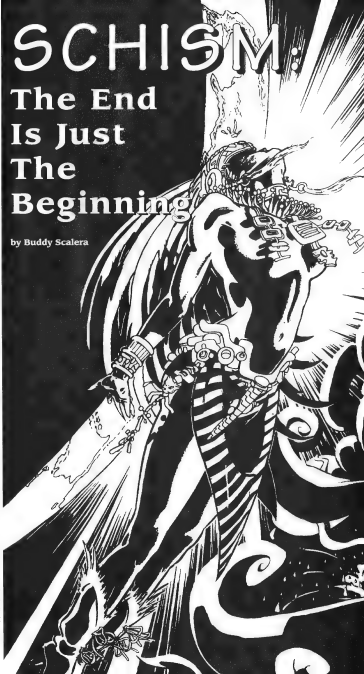
Even in the most radical of crossovers, characters generally return to their respective titles and continue in their individual directions. Crossovers are convenient tools for clever writers and editors to introduce change where change may not have been appropriate.

Fans love and hate crossovers for a variety of reasons. A common complaint is that nothing really happens to the status quo. Defiant claims that *Schism* is different because the crossover did not end with the summer. Schism's end is just the beginning.

Confused? Don't worry, it gets easier even for non-Defiant fans. *Schism* is Defiant's engineered jumping-on point for new readers. It's also a turning point for the fans who have been following from the beginning . . . the first beginning, that is.

"If you've never read a single book in the Defiant Universe, you can start with *Schism,*" explains creative director Janet Jackson (call her J.J.).

*Schism* started in July and August with *Schism* #1-#4. It ended with the plot thread weaving through all seven of Defiant's titles solicited for August, showing the story of *Schism* from that particular character's point of view. Yet, as the green of summer melts into the brown of fall, the effects of *Schism* are just coming to fruition.



During *Schism* the barrier fell between earth and the dream world and dreams interacted with reality with disastrous results. It ran through *Charlemagne* #6, *Dark Dominion* #11, *Dogs of War* #5, *The Good Guys* #10, *Prudence & Caution* #4, and *Warriors of Plasm* #13.

### AFTER THE SCHISM

Editor-in-Chief Jim Shooter and J.J. used *Schism* to gently initiate new readers into the fold. During the crossover they retold the entire history of the Defiant Universe and initiated some long-term changes. Defiant solicited three new titles for spring, 1995 and will drop one for a total of nine continuing titles.

*Dogs of War* ends at issue #8 in November. "It's a vigilante book. He's a criminal; he gets caught," says Shooter. "It's probably the first time in comic book history that a series has been ended due to the incarceration of it's hero."

Starting in spring, 1995 will be *Glory*, featuring the adventures of one of the Warriors of Plasm in the real world. It will be written by Trina Robbins, who is particularly noted for her books *A Century of Women Cartoonists* and *Women and the Comics*, co-written with Cat Yronwode. The monthly title will be drawn by Val Mayerik, inked by Steve Leialoha, and edited by Pauline Weiss. It will be the story of a New Jersey housewife/grandmother with powers comparable to Superman. "She's older, she's wise and she's tough enough to save the world," said Shooter of Glory.

Also starting in the spring will be *The Great Grimmax*, which will be written by Art Holcum and drawn by Dave Cockrum. The monthly book will chronicle the light-hearted adventures of Grimmax. Readers will see what happens to Plasm's greatest Splatterball player when he tries to hold down a regular 9 to 5 job in a world where one is not generally encouraged to "mulch" other living things. "To Grimmax, Earth is a paradise, but he's a real stranger in a strange land," said J.J. "He's going to try to build a life here."

The third title beginning in spring, 1995 will be *Dreamtime*, written by J.J. and drawn by John Ridgeway. The series will be the epic story of Thrakahl, who travels through time, space and mythology. *War Dancer* readers will recall that Thrakahl is Ahrq Tsolmec's life-long rival who appeared briefly in *War Dancer* #4.

In a strange twist even for comics, Thrakahl will be thrown back to the beginning of life on earth and will die. In death, however, he regenerates himself on the quantum

among to most powerful homeless to walk the earth. In an unexpected turn, War Dancer will lose his powers and join Billy Ballistic on the professional wrestling circuit.

"One of the things that is unique about the *Schism* storyline is that it has actually been coming since *Warriors of Plasm* #1, which was our first book," said J.J. "Even though it's early in the continuity of the Defiant universe, it's sort of this inevitable storyline."

## SHOOTER, J.J. AND QUANTUM PHYSICS

Shooter and J.J. have *Schism* plotted out on a huge board tacked up on the wall behind Shooter's desk. Together they wax knowledgeably about quantum physics, the collective id of mankind and the end of the world.

"The high concept of the Defiant universe is very much quantum physics," Shooter said. His eyes drifted toward the open window of his office. He explained that every human constantly generates energy and that there is very little difference between matter and energy. Much of what happens in the Defiant Universe occurs in the substratum, which was created by human imagination during dreams, so it is composed entirely of human energy.

Shooter's theories behind the Defiant Universe are heavy stuff. He knows that he needs to do his science homework to make *Schism* work. It's not like the good old days of comic books. Today intelligent audiences demand believable origins and events. Characters need to have realistic motivations and actions.

Despite the seemingly complicated theoretical basis of the crossover event and the entire burgeoning universe, J.J. and Shooter have an uncanny knack for relating the information so that it is understandable to even the least literate in science. That is part of what Defiant offers the throngs of hungry fans. They offer the substance that seems to have been missing in all of the pop-glamour books of recent years.

Defiant's *Genesis* giveaway is the cornerstone of what Shooter has envisioned for the company's line. It reflects Shooter's love of theoretical science. More importantly, *Genesis* contains hints to what type of changes *Schism* will bring. "... there is a rift open between our world and the place where dreams are real ... and the way is open for things of the id to become manifest ... be careful what you dream," Shooter wrote in October, 1993.

### A CHANCE TO DO IT RIGHT

J.J. and Shooter have a lot at stake on their efforts at Defiant. Each has bounced around the industry as employees of larger companies. This time they have the opportunity to do it "right."

Shooter and J.J. believe that they can build a successful company on the merits of good writing. Shooter's background is also a factor that has recently come to strengthen their comic lines. He has the ability to attract marquee names like Len Wein, Dave Cockrum, Trina Robbins and Chris Claremont.

"The main reason we get those guys is because of the creativity we have in this place," said J.J. "I don't think there's another company in this business that offers pros that [kind of creativity]."

New and old readers of Defiant can expect intriguing stories as the company continues to grow, asserted Shooter. *Schism* is Defiant's answer to years of crossovers that do not affect characters or their situations. After all, Shooter is generally credited for being the driving force behind The *Secret Wars* at Marvel, which was considered to be the first major corporate crossover in comic history.

"With so many comic book stories there's good guys and bad guys and they fight and somebody wins. Big deal. You don't have any substance. You don't really care about the characters. There's nothing really at stake for anybody. You don't feel involved," Shooter said. "To me, the way to make a story compelling and involving is to make sure the characters have something at stake. If on page 37 and 38 you're not rooting for somebody, and hoping something will happen, and being afraid something else will happen, then we've done it wrong."

BY STEVE FRITZ

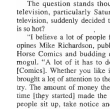
Everyone has been talking about the crossover of comics onto both the big and little screen. Hollywood was more than 'cooperative in exemplifying matters with the release of *The Crow* and *The Mask*, while stoking the hype machine about upcoming features like *Timecop* and *Batman Forever*.

But it's really going to hit home when you see the full animation schedule. All in a look at the existing network schedule, add in CBS's mid-season plans for *Savage Dragon* and *The Mask*, and also add syndication and cable plans for the *Marvel Action Hour*, *Phantom 2040*, *Cadillacs & Dinosaurs* and *The Maxx* you start to get the picture.

The question stands though, why has television, particularly Saturday morning television, suddenly decided that animation is so hot?

"I believe a lot of people finally got it," opines Mike Richardson, publisher of Dark Horse Comics and budding entertainment mogul. "A lot of it has to do with Image Comics. Whether you like it or not, they brought a lot of attention to the comic industry. The amount of money they made at the time [they started] made the entertainment people sit up, take notice and start taking comics seriously.

"I think now there's a real desire in the entertainment industry to look at comics as good properties," adds Richardson. "They have to constantly come up with good ideas for shows, and there's this whole industry that does nothing but create ideas that are potentially good properties."



**Spider-Man**

Richardson should know, all the entertainment media mavens are expecting boss box office numbers for the film based on *The Mask*. CBS caused a minor stir in their own right when they announced that an animated series is also planned as a mid-season replacement in their Saturday morning lineup as well as two Image titles, *Savage Dragon* and *WildC.A.T.S*.

Of course, the last thing on Jim Lee's mind when he created *WildC.A.T.S* was a movie or TV deal.

"At the time I wasn't thinking of it as a movie or any of that stuff," he admits. "I was just trying to develop some new things as comics."

Lee also notes that the animation world is a very different one from comics.

"Yeah," he acknowledges. "Right off the bat they told me that they couldn't do the kind of detail I put in the comics. I realize that they just can't animate that kind of style. I've been trying to impress on them my scale and perspective on it all, and they've been pretty receptive.

"When they start asking you what are the characters' motivations and reactions, then you start realizing that animation is VERY different from comics. With comics you can have those sprawling story lines and not have to worry about the origins so quickly. We had to rethink stuff, simplify it and make sure it worked in the new medium we're working in."

This hasn't stopped Marvel in the slightest though. With the continuation of the *X-Men* (their third season), and the introduction of *Spider-Man* on Fox as well as the *Marvel Action Hour* in syndication, you could say that they are going full steam ahead.

"We want to be very big in animation," says Mr. Marvel himself, Stan Lee. "We figure we got the properties. It was a tough sell to the networks, but they now realize that there is a high appeal to these characters. Now, the only decision we have to make is do we go syndication or with one of the networks."

The main lesson Marvel (and now all comic publishers) learned was to retain creative control. After all, one of the edges DC had over Marvel was the former's part of Time Warner. Time Warner also owns Warner Bros., and the two wings keep tight communications between themselves.

Marvel didn't have that. So they created their own wing, headed by Stan Lee, to handle the creative end of their properties.

"In the old days we had no control over the shows," he admits. "Now, not only are we writing them, but we are producing them. We have total control. I think all our new series will really surprise you. We think you will love them."

What most people are unaware of is it takes a lot more money, like 100 times more, to produce one year's worth of an animated series than it does to produce comic books for the same amount of time. This makes studios and networks very, very nervous. Also, there's a lot more pressure on the television industry from all forms of political groups that comics have only started to feel.

**Savage Dragon**

One of the biggest rumors going around is the new *Adventures of Batman & Robin* is a much less violent variation of *Batman: The Animated Series*. One reason for this may be that Fox was feeling pressure to curb down the guns and sexier elements of the DC cartoon from both parent and fundamentalist groups.

Jim Lee had this to say about censorship.

"I think in comics we have this inflated currency where the women are unbelievably tall and certainly boisterously figured," he laughs. "You forget, because the comics and their censors see that it's the first thing they gravitate towards. It's something you don't want kids to see a lot of.

"So they cut back the curves a bit. Zealot's thong and G-string outfit has been toned down to a pair of bike pants. Voodoo's no longer a stripper. That whole theme got excised. The women's asses and thighs were reduced. Although the studio I'm using, Nelvana, has been talking about how they want the work overseas and the shots would return with all the women's breasts enlarged. I'm not sure I want them back again."

While it's funny in its own right, there's a serious side effect that has places like CBS going crazy.

"The FCC and the Senate are going at it hard," Jim Lee admits. "So cartoonists these days are going over everything with a fine tooth comb. They know they are under a very critical eye. There's a lot of pressure to cut back."

But Jim Lee understands some of it too. "Saturday morning's main audience is kids 6 to 11 year old, which is a lot younger than comic books aim for. I see *WildC.A.T.S* the comic being very different than *WildC.A.T.S* the animated series. Ostensibly, you have the same name, same characters, but you are also going to decapitate people in the cartoon."

All in all, there is a lot of confidence being placed on these new comic related animated series. And why not?

"Comics are the most popular form of entertainment matter for young people today," says Stan "The Man" Lee. "The reason why they are so popular is because young people like them. Young people also like cartoons. There's a natural relation between the two, so why shouldn't young people like them on screen?"

# Golden Age Extra

## LAST SON OF KRYPTON, FIRSTBORN OF SUPERHEROES

**BY JAMES CHAMBERS**

He was the American Dream. Bigger. Faster. Stronger. Better. He was the ultimate immigrant, the last son of a dead world in another solar system. Arriving in an experimental rocket, he crashed in the American heartland and became more than any mortal could ever hope to be. Adopted by a farming couple, he grew up to stand for truth justice and the American way. It could overnight he became a cultural icon.

Dreamt up by the nineteen-year-old writer Jerry Siegel and artist Joe Shuster, Superman was the culmination of science fiction trends popular in pulp magazines the pair liked to read. The idea of one man superior to his fellow men, a being who obtained the fullest extent of his physical and mental potential had appeared in a number of short science-fiction stories, some of which even used the words "superman" or "supermen" in their titles. Adapting the premise to the comic strip form Siegel and Shuster created a character who stood above his fellow men, yet concealed his abilities beneath a false appearance of meekness. He stood for "strength, courage and justice", explained a 1940 ad for the Supermen of America club. Using his great gifts only in times of emergency and for the good of all people, he embodied the true spirit of heroism.

Still, Siegel and Shuster's Superman strip languished in obscurity for several years, rejected by every publisher that reviewed it. With their greatest creation all but forgotten the team went on to produce other strips such as "Dr. Occult", "Federal Men", "Spy" and "Slam Bradley" for National Comics Publications. It was at National that Superman finally found a home. With a new adventure title in development editor Sheldon Mayer brought the strip to the attention of Max C. Gaines, a trailblazer in the young comic book industry. Gaines recognized the potentials in the strip and relayed it to Harry Donenfeld, National's publisher. Originally produced for publication as a comic strip, the material was quickly reformatted and published in *Action Comics* #1.

Superman quickly proved to be the Man of Tomorrow in more than name only. Foreshadowing the comic publishing boom to come in the following years, sales on *Superman* started high and increased steadily. By the time the Golden Age had hit its stride the Man of Steel was starring in *Action Comics* and *Superman*, as well as making regular appearances with Batman and Robin in *World's Finest Comics*. The Max Fleischer animation studios produced a series of extremely high-quality cartoons shown in movie theaters, and a Superman radio program was launched. A daily strip appeared in newspapers across the country, and a mass of Superman merchandise sprang up. By the next decade, when most superheroes had disappeared, Superman was still popular enough to continue publishing and to carry movie serials and a well-received television series.

While phenomenal success made Superman a household name, it also popularized superheroes at large. As more comic books appeared featuring more costumed do-gooders with and without superpowers it became clear that the Last Son of Krypton had cast the mold for a new generation of heroes. Drawing from literature, science-fiction and the adventure pulps, Superman combined a number of elements and introduced them for the first time to comic books. Initially he drew his powers largely from the lower gravity of Earth as compared to Krypton, which allowed him to accomplish great feats of strength, a theme hinted in the science-fiction genre. He kept his true identity secret, a technique used by other fictional contemporaries such as the Shadow and Doctor Death in pulps. This was combined with a flashy costume and action scenes that only the comics could offer. Other characters such as Batman followed the trend, blending outside influences from pulps and movies with the visual appeal of comic books to produce striking characters. The ensuing success lead to the explosion of superhero comic books in the early thirties, all leaning on the same elements that had made Superman great. Countless costumes abounded, secret identities were thrown on and new super-powers were unveiled month after month. In the wake of Superman's success, superheroes became a very profitable area for publishers.

But more than just influencing the appearance and style of his colleagues, Superman influenced their personalities as well. Characterized as a man with a firm moral code, he established the standards for superhero values. They had to be better than the villains they battled. They had super in mind and body, they had to have super hearts and be compassionate and fair. Better to beat criminals at their own game or teach them the error of their ways than simply do away with them. Superheroes had to stand for something the way Superman stood for truth and justice. Whether they took their inspiration from the light like Green Lantern who shed his light over evil or from the dark like Batman who battled the cowardly and superstitious for that filled the criminal populace, they fought always on the side of justice. Though not every hero adhered to such a code, its presence was overwhelming.

This was part of the legacy of

Superman, and the greatest contribution of Joe Siegel and Jerry Shuster to the comic book medium. One might argue that they created the superhero and in so doing birthed the superhero comic book, but superheroes would hardly be what they are even today had they not instilled their creation with great virtue and bravery. Superman was a symbol for the new world that would rise out of the ashes of the second World War, a world with the immense power of the atom and the need to temper their use of that power. If nothing else, Superman conveyed to millions of fans and comic creators the message that those with power must struggle to find the right channels for its use.

The early appearances of Superman are remarkable for their energy and their originality. They capture the essence of heroism in a way few comics ever have, and they brim over with a sense of innocence that few pages linger a tense of what man might be at his best, a theme present in comics for over sixty years and later developed by legendary creators such as Jack Kirby. For all the heroes and comics that have come since, Superman has been the cornerstone, sometimes worn and cracked over the years but never far from what he has always symbolized. The height of heroism, Superman is the most important character in the Golden Age, and the most significant in comic book history.

# What's Hot

## In Comic Books

### Fan Favorites

#### 1. Gen [13] #1

For the third straight month the super hot team book from Jim Lee remains #1. With the series continuing along and gaining more and more popularity by the second, the demand for this first issue is extremely high. The problem is, everybody wants one, but there just aren't enough to go around.

#### 2. Amazing Spider-Man #149

*Amazing Spider-Man* #149? What the bloody heck is that doing there? I wish I knew. With the return of the Spider-Man clone now upon us, collectors are climbing the walls to get themselves a copy of the very first Spider-Man clone appearance. Long thought dead, the clone has returned, thanks to our good friends at Marvel. Speaking of climbing...the price of this relic is climbing higher than Aunt May's age. Better get it now.

#### 3. Lady Death Swimsuit Special #1

The most buxom death in comic-land shows almost all her goodies for the world on this month's Top Ten. Chaos! Comics has a definite hit with this character. It's not often that a pin-up book takes the industry by storm, but the queen of beyond has done just that. This book features Lady Death in a variety of poses in a variety of her skivvies by a variety of hot comic artists. It's every fanboy's dream.

#### 4. Vengeance of Vampirella #1

Other than for the obvious reasons — hot babe, skimpy costume, foil wraparound Joe Quesada/Jimmy Palmiotti cover — this Harris comic is bound to stay on the Top Ten for months to come because of its...well, maybe it's the obvious reasons.

#### 5. Lady Death #1

The beautiful bad girl that started the whole craze is on this month's Top Ten for a second time. Collectors fell in love with the one person they wouldn't mind meeting when they make it to the other side. And she doesn't look half bad on the cover in chromium, either. I guess that's why this book is such a hit with fans across the country. The low 50,000 print run also didn't hurt. At least not as bad as a night with Lady Death would!

#### 6. Shi: The Way of the Warrior #1

Little Crusade Comics has struck gold with their version of a babe with attitude. But don't let that fool you. *Shi* is a kick-butt action comic starring a top notch female martial artist, who just happens to wear very little or nothing at all, and featuring beautiful artwork. Couple all this with a low print run and you have a winner. This once again proves that the key to popularity is a small print run and an even smaller costume.

#### 7. Gen [13] #2

What more is there to say about this title. It looks like, eventually, all the initial issues of this series will make the Top Ten. If you haven't read why issue #1 is on the list then you won't understand this listing, so go back and reread #1. Okay, *Gen [13]* #2 is here because orders for it were very low and, as you saw with issue #1, the demand was very high. When the demand for a second issue with a smaller print run than the first issue equals the demand for the first issue, watch out — hot book! Such is the case with this.

#### 8. Deathblow #5A

Did Extreme Studios start a trend with their use of alternate covers to bring exposure to their book and new artist? It sure looks that way. This one, from Wildstorm Productions, was only about 25% of all the copies distributed. That's not a lot! What makes this even more special is that the cover was done by Mikic Portacio. He's been out of comics for quite a while and this cover was used to stir up interest, not only for *Deathblow*, but Whilce's new title *WetWorks*. Looks like it worked!

#### 9. Prophet #4A

Weren't we just talking about alternate covers? This is the one that started it all. You know, this is the first time in months I haven't uttered the name Stephen Platt endless times. Is the demand for Platt comics dying off? Hardly! Just try and find one of these at a reasonable price to see what I mean.

#### 10. Drama #1

Are you asking yourself, "Why is *Drama* #1 on the Top Ten?" Ever heard of Joseph Linnner? You know, the guy that brought us one of the original hot babes, Dawn, in *Cry For Dawn*. Well, Linnner's at it again. Only this time he does it completely in color. Fans of *CFD*, and there are many, vent bonkers when they found out Dawn was going to appear in a color comic for the very first time. If you're a fan of great art, you don't want to miss this one!

# INDEPENDENT REVIEW

**By IAN M. FELLER**

I met **Spectre Comics** president, Bill Kennedy at a comic convention some months back. At the time, he gave me a copy of his comic, *Spectre Presents* **#1**, with the hope that I would review it in "Independent Review.". Like all comics received for review, it went into the pile for future consideration.

I recently ran into Mr. Kennedy again at another comic con. He was very persistent in his attempts to have *Spectre Presents* #1 reviewed, so upon returning to my office I pulled the comic from the top of the pile and read through it.

*Spectre Presents* #1 is a $2.95 black and white comic featuring three stories, all by different creative teams. The three stories are all introductions to the characters of the Spectre Universe.

The first story, "The Big Kill," stars The Enforcer, a creation of Bill Kennedy. It is written by Jermaine Chambers, penciled by Alex Estevez and inked by Anslem Richardson.

"The Big Kill" takes place in Little Kingston where an armed gang has The Enforcer backed into a corner. Their thoughts of retribution become quickly dispelled as The Enforcer shows them his brand of justice.

Jermaine Chambers' story, though only 7 pages, is quite good. You get an immediate feel for the characters mental anguish. Though you leave wondering why he does what he does, and feels like he feels, the story makes you anticipate the things to come.

Handling the artwork with a certain flair, Estevez has designed characters that exude a personality all their own. Just by looking at them you can feel their hatred and anger. Another highlight is Estevez's use of unusual angles and viewpoints. This usage adds to the sense of action felt throughout the story — like that seen in a good movie — and makes each panel even more dynamic.

The next story is "Night and Day" by creator Rick Lyon. "Night and Day" is a superhero yarn starring the characters Eclypse and Reverse. In the city of Miami a drug deal begins to go down when our heroes interrupt. But one of the drug lords has a special surprise up his sleeve for the intruders in the form of his own super-powered villains.

Well suited for this story is Lyon's style of artwork. Unlike many artists these days, Lyon has a grasp of anatomy, and can draw a character in regular clothes. Of course, my only complaint is the lack of backgrounds in many of the panels, but this is easily overshadowed by the constant action each panel contains.

The final story is "Modern Warriors" by creator, artist Jude Millien. This story was a bit unclear. There are so many different characters involved they begin to get confused. From what I could tell, the story introduces an alien race come to earth and bent on destruction. A group of superheros is all that can stop them. Within the 8 page story so many subplots seem to be taking place, I was a bit lost.

The highlight of the story was Millien's artwork. He has a very detailed style that would be a hit with any comic fan. It reminded me a bit of John Romita, Jr. Millien introduces the story by laying out each page identically. This works for the introduction, but it makes it difficult to judge his actual storytelling ability. We'll have to wait for a full issue to see his page layouts and decide on his storytelling talent.

When taken as a whole, *Spectre Presents* #1 is a fine introduction to this new expanding universe. Even a few minor setbacks couldn't detract from this book's overall quality. If you can't find it at your local comic shop you can obtain a copy by writing to Spectre Comics, Inc., 10201 Hammocks Blvd. #151, Miami, FL 33196.

# COMIC CARD CORNER

## DON MARTZ ART CARDS

**Don Maitz** has done artwork for over 250 published book covers, posters, puzzles, and record albums. He's also the guy who drew the famous pirate on the bottles of "Captain Morgan Spiced Rum". FPG has produced a 90-card series featuring Maitz's artwork on the card fronts with text written by Maitz on full-color card backs.

Every 12-box case (36 packs per box, 10 cards per pack) contains a free, special multi-card uncut sheet of cards signed by Maitz! Only 2,500 cases have been produced too. Randomly inserted in card packs are five different Metallic Storm cards and 1,000 autographed cards - which now come foil stamped with the company logo and the words "Autographed Card" written on a scroll underneath.

## TIM WHITE ART CARDS

**Tim White**'s three books featuring his collected works have gained him worldwide recognition as one of today's most popular science-fiction/fantasy artists. A 90-card set of White's works has been produced by FPG that includes full bleed pictures with full story-like text on the card backs.

This card series has been packaged in 12-box cases (36 packs per box, 10 cards per pack) and each case contains a free, special multi-card uncut sheet of cards, signed by White. Production has been limited to 2,500 cases. Randomly inserted in packs are five different Metallic Storm cards and 1,000 randomly inserted autographed (and specially foil stamped) cards.

## CHROMIUM OLIVIA CARDS

This just may be the blockbuster set you've been waiting for! Comic Images has produced a 90-card series entitled **The Best of Olivia All-Chromium Collector Cards**. The set is comprised of 80 of her most popular paintings from the first three series in chromium format, plus nine never-before-released paintings and, of course, a checklist. The card backs include Olivia commentary, along with information from an exclusive Olivia interview.

Randomly inserted bonuses in the series include: six different Omnichrome cards, 500 special autographed cards with certificates of authenticity (COA's) on the backs, a three-card "Ladies In Red" subset (one card per box), a Medallion card (four cards per case), mini 5" x 7" press sheets, and a special uncut six-card sheet. Seven cards are in each pack, 36 packs per box, and 12 boxes per case

## RON MILLER SCI-FI FANTASY CARDS

**Ron Miller's Firebrands Heroines of Science-Fiction and Fantasy** series from Comic Images features illustrations of the wondrous women in sci-fi/fantasy. Aside from doing artwork for book covers, calendars, and posters, Miller has taught and lectured across the country and has even consulted for Walt Disney. The full color cards in the set (front and back) also include "bios" of the depicted characters on the backs.

Bonus cards include: six Galaxy cards, 500 special autographed cards with COA's on the backs, a three-card "Winged Women" set (one card per box), a Medallion card (four cards per case), mini 5" x 7" press sheets, and one uncut sheet of six cards. 10-card packs are available in 48 pack boxes, and 12 boxes are in each case.

## ULTRAVERSE CARDS UPDATE

Dave Dorman will provide 100% of the artwork for the new **SkyBox Master Series: Ultraverse Edition**. Dorman has created 96 all-new, original paintings of the Ultraverse characters for this card series which includes 90 regular cards plus five randomly inserted Ultra Cards (foil etched - odds 1:12 packs) and two unique holithograms (odds 1:36 packs).

In addition, 2,400 Dorman autographed cards and 75 Original Art Exchange cards (odds 1:38,400 packs) have been randomly inserted in 6-card packs.

## SIMPSONS II

Doh! Here they come again! SkyBox has produced a **Simpsons II** card series which includes 80 regular cards that contain all-new artwork. A special set of six *Simpsons* preview cards are exclusively available in certain comic books from Bongo Comics. One of the six cards is a special decoder card which

BLACK BELCH!
SMELL-O-RAMA CARD
The Skeleton Black Belch can clip out cards via hooks with a single flick of his skeletal arm!
Use the Belch to decode the deadly scene of his deadly opponent!

decodes 10 of the secret messages throughout series II, while the other five cards include a Smell-O-Rama card, a Spinner card, and a Master Art card.

SkyBox has also included randomly inserted Disappearing Ink cards and very limited Master Art cards in 8-card packs. Back by popular demand are the two-image Wiggle cards too.

The suggested retail price is $1.49 per pack.

## DC CARDS AT WAL-MART

SkyBox has struck a deal with ANCO, a company that distributes products exclusively to Wal-Mart. All Wal-Mart stores in the U.S. will now carry **DC Stars** trading cards by SkyBox in every check-out line. The 54-card set features favorite characters from the DC Universe. Four foil cards have been randomly inserted in packs as well.

Unfortunately, the card production is unlimited and the set is not considered to be as collectible as other, more limited sets from SkyBox. The cards are "more of a children's product than anything else". The 99 cent card packs are intended to get more people involved in card collecting.

## MARVEL CARDS UNIVERSE 1994

Fleer's **Marvel Cards Universe 1994** series consists of 200 gold-foil stamped, UV coated, six-color printed cards. Artists who worked on the set include Adam Kubert, Tom Tenny, Tom Lyle, Ron Lim and others. Nine-card subsets featured in the set are: Crash and Burn, Fall of the Hammer, Fatal Attractions, Maximum Carnage, Blood Ties, Siege of Darkness, Suicide Run, Blood and Thunder, and Fall from Grace. Also included are nine freeze-frame cards in which characters are pictured on real life backgrounds.

The 19 chase cards to look for include six suspended animation plastic cards, four hologram cards, and nine Power Blast foil-stamped cards.

Each 10-card pack has a suggested retail price of $1.49.

## SPELLFIRE TSR CARDS

The new **Spellfire** card game from TSR contains 110 cards in the double deck starter packs which have a suggested retail price of $8.95. The 15-card booster packs include cards that can be added to the original deck to make it more powerful during game play. ## HOW TO USE OUR PRICE GRADING GUIDE

All price guide lists are based on a specific condition, and are listed in a range in order to account for regional and other variations. Always remember that these prices are not absolute, but are only meant to reflect the dominant pricing for any given book on the market.

**Mint**—This is perfect condition as if the book just rolled off the presses or just left the newsstand. The colors are bright and lustrous, and lettering pages are white. The book is flat with no folds or creases and the corners are square cut, sharp and complete. The spine is clean, tight and uncreased, and the paper is clean and white. The cover is unmarred and firmly attached to the pages. Books in this condition generally sell for eight times the guide price, but up to 1970 may be priced up to 200% guide price. Golden books after 1970 may be priced at 50% above guide price.

**Near Mint**—This is nearly perfect condition, a mint book that has been read carefully. Colors are still bright, but may be somewhat faded. The book is flat with a tight, crisp spine, but the corners may be slightly rounded. Pages are unmarred and white, as inexpact fingerprint markings may be allowed, but the cover must be unmarred and secure. Near mint books generally sell for around the guide price.

**Very Fine**—This is a nice comic book that looks good. There is very little color fading and interior pages are nearly white. Minor creases are permitted in binding that is otherwise flat and secure, and one small crease may be found either on front or the cover. The paper is strong, showing no signs of brittleness. Overall the book looks as if it has been read a few times, but is not damaged. Books in this condition may sell for slightly less than guide, but usually not for no less than 80% guide pricing.

**Fine**—This is a good looking book that shows some signs of wear and aging. The cover is flat and the binding tight, but there may be a couple of color and minor creasing. There may be some wear along the spine. Interior pages are beginning to look tan brown, and the book, on the whole, is a better than average copy. Books in this condition usually generally sell for 50% of guide pricing.

**Very Good**—This is a well used comic, with considerable wear and aging, but without any serious damage. The spine is creased, and may show some fading and heavy stress lines near the staples. The colors are significantly faded and rust from any minor creases in the cover. Interior pages are still good, and show no browning. Some minor tears to the cover are permitted, and there may be minor cover stains. May contain a name or address but may not be attached. In this condition a comic may sell for as little as 30% of guide price.

**Good**—This is a complete comic book that shows serious signs of wear and aging. The cover may be creased, stained and chipped, and colors faded and dull. Interior pages may show signs of some completely brown and show no signs of brittleness, although there may be chipping. Overall, the book is completely readable. Comics in good condition may sell for around 20% of guide price.

**Fair**—This is an extremely worn book that is still complete, although not held together tightly. It is still readable, but may have major tape markings, pieces missing from the front or back cover, back, tears, browning pages and extensive spin roll. Books in fair condition are generally considered not collectible. Fair books are usually priced at approximately 10% of guide price.

**Poor**—This is a significantly damaged book. It may be missing large pieces or even the entire cover. Pages are torn, stained, browned and brittle. Severe damage to the spine, such as hopeless spine roll or massive rust stains.

Always remember that these are broad retail prices and are not absolute, but are only meant to reflect the dominant pricing for any given book on the market.

Also, when going to sell your comic books, please remember that most dealers will pay anywhere from 25-75% of the prices listed in this guide depending on supply and demand.
